

Welcome to the *SUPERPOWERED*SM season!
Here is some information to help you get started!

FIRST® LEGO® League Challenge is one of three divisions by age group of the *FIRST* LEGO League program. This program inspires young people to experiment and grow their confidence, critical, thinking, and design skills through hands-on STEM learning.

Welcome to the *FIRST*® ENERGIZESM season presented by Qualcomm. This year's *FIRST* LEGO League challenge is called *SUPERPOWERED*SM. Children will learn about how energy is generated, stored, distributed, and consumed. As there are more demands for energy, the children need to rethink how energy is generated and used. We have the power to build a path forward and invent the future of energy. And it starts here, with you.

You will receive the following items as part of your *FIRST* LEGO League Challenge Season:

- Challenge Set
- Team Meeting Guide
- Engineering Notebooks
- Robot Game Rulebooks

Read these documents carefully and check out the "What Does the Team Need?" page in the Team Meeting Guide.

You will also need computers or devices with the SPIKE™ Prime or MINDSTORMS® software downloaded from the [LEGO® Education website](#).

For Challenge Information

Visit our program resources page [here](#) for:

- **Important Updates**
- **Missions, Field Set Up, and Robot Game Rules**
- **Building Instructions** for the mission models
- **The Robot Game Score Sheet and the Judging Rubrics**
- **Robot Game Table Building Instructions**

If you are participating in our Class Pack option, check out the **digital Implementation Guide** and **Class Pack Tournament Guide**, which you should have received when you registered for a Class Pack.

If your team would like to participate in a **Regional Qualifying event**, please check your local options as there may be remote or in-person options as well as registration requirements and fees.

Good Luck and have fun!

Check out the **season launch video**, [FIRST LEGO League YouTube channel](#).
