

Welcome to the *SUPERPOWERED*SM season!
Here is some information to help you get started!

FIRST[®] LEGO League Discover is one of three divisions by age group of the *FIRST* LEGO League program and serves the youngest children. This program inspires young people to experiment and grow their confidence, critical thinking, and design skills through hands-on learning. *FIRST* LEGO League was created through an alliance between *FIRST*[®] and LEGO[®] Education.

This year's *FIRST*[®] ENERGIZESM season is presented by Qualcomm. The *FIRST* LEGO League challenge is called *SUPERPOWERED*SM. Children will learn about different types of energy sources, storage, distribution methods, and ways in which energy is consumed.

You will receive the following items for your *FIRST* LEGO League Discover Season:

- Discover Sets**
- Team Meeting Guide**
- Engineering Notebooks**

Read the *Team Meeting Guide* and *Engineering Notebook* to gain an understanding of the season and what you will need to prepare.

You will find important information and documents about the season on the *FIRST* LEGO League website [here](#). Click on the division block to find your season resources.

At the end of their experience, all teams should participate in a celebration event. The children will love sharing with others what they have built and learned. It could be held in your usual session meeting space, a classroom, a library, or anywhere else that has appropriate room for the teams to spread out, build, and have fun.

If you are participating in our Class Pack option, check out the **Class Pack Guide**, which you should have received access to when you registered.

Good luck and have fun!
